- ✦ Dispersed panel comments and no fund letters as needed.
- ✦ Managed expenditures for each peer review.

Claire Pak – Senior Writer Editor

Career Summary

Claire Pak is a writer and editor with several years of experience supporting federal agencies. She currently serves as Communications Manager for the HHS Next Generation IT Services (NGITS) Program Management and Integration task order. Ms. Pak is a writer/editor whose experience includes policy and procedure writing, proposal writing and editing, writing and editing a variety of content for internal and customer use, and social media management. She specializes in distilling complex business and technical ideas into simple, plain language; and is an effective editor, skilled at polishing the work of other authors.

Education, Training, and Certifications

University of Maryland University College, B.A., English (summa cum laude) ***Work***

Experience

Communications Manager/Technical Writer

January 2017 - present

DSFederal, Inc., Rockville, MD

- Communications Manager for the HHS Office of the CIO Next Generation IT Services (NGITS) program (since March 2018). Write and edit management reports and news updates, develop and deliver presentations, facilitate meetings that include government stakeholders at all organizational levels, contribute to SharePoint redesign project; and provide writing, editing, and proofreading support for the entire team.

- Write, edit, and proofread proposals, capability statements, RFI responses, cut sheets, and other business development materials and collateral.
- Write web content, including blog posts.
- Contribute to internal communication (write and edit monthly newsletters, write and edit internal memos, and work with project managers to communicate project information).
- Manage company social media accounts.
- Provide writing and editing support for customers including HIV/AIDS Bureau (HAB) Building Futures program, HRSA Office of Federal Assistance Management (OFAM), HIV/AIDS Bureau Global Technical Assistance Program (G-TAP), Office of Research Integrity (ORI), Assistant Secretary for Preparedness and Response (ASPR), Office of the National Coordinator for Health Information Technology (ONC), and others.
- Provide as-needed corporate writing and editing assistance, including white papers, executive correspondence, employee resumes, memos, etc.

Technical Writer/Talent Acquisition Support Specialist
MasterPeace Solutions, Ltd., Columbia, MD

March 2016 – January 2017

- Supported talent acquisition and placement for a small NSA technical subcontractor.
- Interviewed software and system engineers; wrote and edited resumes.
- Wrote and edited submissions to prime contractors.
- Assisted with corporate and marketing communications.

Copy/Content Editor
Frontier Strategy Group, Washington, DC

November 2014 – March 2016

- Provided copy/content editing support for a business advisory services firm. Edited subscription reports and custom research reports commissioned by corporate clients.
- Topics included business, economic, and political conditions in WEUR (Western Europe), LATAM (Latin America), CEE (Central and Eastern Europe), MENA (Middle East and Northern Africa), SSA (Sub-Saharan Africa), APAC (Asia Pacific and China).
- Work included both simple line-level edits for spelling, punctuation, and basic grammar; and deeper, content-level edits to improve cohesion, clarity, and concision. Many of the company's researcher/authors are non-native writers of English.
- Wrote corporate style guide.

Senior Technical Recruiter
Pontoon Solutions/The SI Organization, Laurel MD

January 2014 – October 2014

- Same as below—Applied Communication Sciences was acquired in May 2013 by The SI Organization, and The SI Organization outsourced recruitment to Pontoon Solutions.

Technical Recruiter/Staffing Specialist
Applied Communication Sciences, Basking Ridge, NJ

September 2012 – December 2013

- All aspects of recruiting and staffing for a telecommunications and computer science research company with substantial Federal contracts, including campus recruiting.
- Recognized by company CEO for improvements in process and service.

Technical Recruiter/HR Generalist

September 2009 – June 2012

Government Services IPT, Largo, MD

- All aspects of recruiting/staffing for SBA-certified 8(a) contractor across multiple technical disciplines. Played significant role in company growth, from approximately 75 employees in 2009 to approximately 120 at peak in 2010.
- Wrote/edited the company's online Employee Handbook and Operations Manual.
- Served as a technical writer on project teams. Wrote newsletter articles for military clients and drafted and edited policy/procedure manuals for civilian and military clients.

Montgomery County Examiner/EXAMINER.COM (Freelance Writer) April 2009 – June 2009
EXAMINER.COM (Clarity Digital Media)

- Generated story ideas, conducted interviews, took photographs, and wrote articles.

Awards/Honors

- DSFederal Employee of the Year, 2017
- Phi Kappa Phi National Honor Society

Celeste Pleasant – Research Analyst/Advisor

Cini-Little International, Inc., Rockville, MD

Managed all accounting operations of this \$10 million international commercial foodservice design and management consulting firm with 6 separate operating entities in 8 domestic and 5 international offices.

Publications and Awards

- HRSA Director's Award for Technical Assistance. November 2017.
- "Review of Alternative Payment Report," Report to HRSA, January 2010.

Jessica Chen – Health Informatics Analyst

Career Summary

Ms. Jessica Chen is an experienced analyst with experience in diverse fields including business process analysis and data analysis. She has experience reviewing and analyzing business processes, procedures, policies, and systems to map workflows, identify inefficiencies, and suggest

improvements for streamlining the processes. She performs data analysis for Federal government resources to facilitate consistency of financial and business information.

Education, Training, and Certifications

- McGill University, B.S., Chemistry, Minor English Literature, Montréal, Québec, Canada, 2012

Work Experience

Business Analyst

March 2014 – Present

DSFederal, Inc., Rockville, MD

Comprehensive System and Organizational Assessment of HRSA National Practitioner Data Bank (NPDB): HRSA Bureau of Health Workforce (10/2018 – Present)

- Conduct interviews with NPDB internal and external stakeholders including, senior leadership and line staff from multiple HRSA bureaus and offices and HHS offices and external users.
- Review and analyze procedures, processes, systems, and sites to understand the current NPDB processes.
- Benchmark NPDB program practices against industry and Federal government best practices and standards and compare NPDB program practices to other Federal agency practices.
- Develop recommendations for to-be state for the NPDB program based on best practices. Conduct financial and business analysis to determine cost of implementation and effects on the NPDB program's operating reserve.
- Review policy documents and regulations, including the Code of Federal Regulations, Title IV of the Health Care Quality Improvement Act of 1986, Section 1921 of Section 5 of the Medicare and Medicaid Patient and Program Protection Act of 1987, Section 1128E of Section 221(a) of the Health Insurance Portability and Accountability Act of 1996, and Section 6403 of the Patient Protection and Affordable Care Act of 2010.

Office of Federal Assistance Management (OFAM) Grants Risk Management Contract: HRSA OFAM (09/2017 – 09/2018)

- Review and analyze procedures, processes, systems, and sites to understand the current grants processes. Draft, review, and revise risks and opportunities within OFAM's grants processes.
- Analyze and rate risks and opportunities based on impact and probability, and determine potential mitigation strategies based on risk velocity, mitigation impact, and feasibility of implementation.
- Develop dashboards visualizing different aspects of risks and opportunities (e.g., risk category, risk source, risk/opportunity owner, risk/opportunity topic areas, risk/opportunity level) to support OFAM in operationalizing their risk management as an informed, data-driven component of HRSA's enterprise risk management framework.

Develop and Implement a Knowledge and Workflow Management System for the Administration for Community Living (ACL): HHS ACL (10/2016 – 09/2017)

- Interview key stakeholders to determine requirements based on client pain points, expectations, and requests for the knowledge workflow management system.
- Reverse engineer an Access database used by Region V to store information and create reports on Older Americans Act Mandatory Grants. Attend demonstrations to better understand the current use and purpose of the Access database.

Office of the National Coordinator for Health Information Technology (ONC) HealthIT.gov Redesign: HHS ONC(10/2015 – 09/2016)

- Perform ROT analysis including creating visualizations for analysis of page views, content type, targeted audience, modification date, and Google Analytics metrics such as bounce rate, percent new sessions, and page views per session.
- Run queries using Google Analytics to support development of a new informational architecture.

Subject Matter Expertise for the Office of Research Integrity (ORI): HHS ORI (06/2016 – 12/2016)

- Perform data analysis on over 2000 ORI accessions and create graphs to allow consumers to easily grasp key points. Create sample graphs and graphics sketches to expand the support provided into areas initially considered to be "too hopeless" to be visualized. Develop graphs highlighting different aspects of the research misconduct data including, demographics of complainants and respondents, research misconduct trends, and resolution times of cases.
- Draft and revise captions for approved graphs, drawing conclusions, and providing further technical information to improve transparency on the data and methods used in the analysis.
- Verify and validate inconsistent data and perform queries to correct inconsistencies.

MCHB Healthy Start Monitoring & Evaluation Data (HSMED) Project: HRSA MCHB (10/2015 – 04/2016)

- Perform comprehensive testing of the HSMED application and database.
- Create comprehensive .XML test files, including scripted and off script test cases to ensure full and correct functionality of the HSMED application.
- Create comprehensive .CSV test files to ensure full and correct functionality of the Tool for Healthy Start eXport (THX) application, an external tool supporting conversion of .CSV files to .XML files.

Common Data Elements Repository-Library (CDER-L): HHS Assistant Secretary for Financial Resources (ASFR) (10/2015 – 05/2016)

- Analyze grants-related forms across multiple federal departments and agencies to determine data elements requested on forms.
- Harmonize data elements used throughout the federal grant lifecycle.

Publications and Awards

- Honorable Mention, Employee of the Year, 2015
- IDEA Core Value Award, Delivering Results, 2015

Nigel Shaw – Data Architect

Career Summary

Systems architecture, analysis and design, database analysis, modeling, design, configuration, tuning, deployment for data warehouses and enterprise-class client-server, multi-tier database applications using

Netezza, Hive, Oracle and SQL Server. Expert for Netezza design and performance tuning. Specializes in design of databases and systems managing large volumes of data, also an expert in tuning existing databases/data models and porting data

warehouses from traditional RDBMS to distributed database. Experienced designer and developer of advanced analytics for real time systems and for BI reporting. A leader for enterprise data management with the passion to create extraordinary solutions while still dedicated to taking care of the thousands of details required to build a complete data management solution.

Education, Training, and Certifications

BS Chemical Engineering Part 1, Imperial College, London 1977

Work Experience

Solutions Architect

January 2018 – Present

DSFederal, Inc., Rockville, MD

- Data Architecture oversight for DSFederal
- Database SME for Relational Databases, Big Data and Blockchain
- Solution designer for enterprise class databases
- Developer of database best practices
- Manages DSFederal Innovation Council

Big Data Architect

December 2012 – January 2018

Aginity

- Provided technical leadership for migration of a financial data warehouse to a new distributed model on Netezza.
- Mentored developers and data modelers for Netezza physical design and Netezza best practices

Database Architect

March 2001 – December 2012

Cricket Communications, Inc.

- Provided technical leadership for architecture, design and development of a new Oracle data warehouse at Cricket.
- Provided architecture and design for back-end systems using Oracle 10G, Informatica, Oracle PLSQL to support both revenue calculation and revenue reporting for systems requiring data management support.

Senior Database Engineer

July 2000 – December 2000

Spotcast Communications, Inc.

- Provided technical expertise and project management for design, development, management and operation of a data warehouse for cellular call flow data.
- Extensive optimization was performed to ensure timeliness of the data delivery, and optimized performance of the web queries.
- Technical Manager July 1999 – June 2000

Expert Choice, Inc.

- Provided technical leadership and project management for design, development, management and operation of a financial data warehouse at the CAMS (Commerce Administrative Systems) Support Center for the Commerce Department (DOC).
- Software developed included: ETL (Extract-Transform-Load), infrastructure (ETL/background job manager) and data warehouse client software. Extensive performance analysis and server/instance/application/SQL tuning ensured the optimized performance of both the database and the warehouse applications.

Yinong Chong – Data Administrator/Statistician

Career Summary

As a senior health scientist with 20 years' experience with CDC, Dr. Chong excelled in leading interdisciplinary teams to accomplish mission critical tasks on time and within budget every single time. She initiated and developed first publicly released data visualization products, designed and developed first interactive CDC accredited CE courses online, conducted various evaluation studies on public health policies, survey instruments and procedures, and developed new ways of measuring emerging diseases and conditions. Her high-performing teams have won multiple innovation awards from CDC for her outstanding achievements.

Education, Training, and Certifications

- Project Management Institute, Project Management Professional (PMP) Certification, 2019
- Mayo Clinic, Health and Wellness Coach Certification, Rochester Minnesota, 2018
- University of Maryland, Graduate Certificate, Research Methodology, College Park Maryland, 2002
- Centers for Disease Control and Prevention, Epidemiology fellow, Atlanta Georgia 1998
- Arizona State University, Doctor of Philosophy, Sociology, Tempe Arizona, 1995
- Chinese Academy of Social Sciences, Master of Arts, Journalism, Beijing China, 1988
- Peking University, Bachelor of Arts, English Language and Literature, Beijing China, 1985

Work Experience

Principal health data scientist March 2019 – Present
DSFederal, Rockville Maryland

- Provide subject matter expertise in designing and conducting evaluation studies and programs
- Serve as a bridge between scientists and technical specialists to integrate IT solution with health science
- Provide leadership and management oversight on HHS projects

Health Scientist/Project Officer July 1998 – March 2019
NCHS/Centers for Disease Control and Prevention, College Park Maryland •

Project officer for multiple evaluation studies:

- Co-chair of DXA software evaluation panel: managed evaluation of computer software and analytical algorithm for scanned bone density images; led to the adoption of cutting-edge method to establish national baseline for bone density and diagnosis of osteoporosis. This resulted in successful reward of the contract under a very short deadline.
- Project officer on evaluation and development of Tanner Staging survey instrument: led the evaluation of Tanner's Sexual Maturity Scale, provided evidence-based recommendations on self-exam versus physician exam, and developed a new protocol using Audio-CASI instrument.
- Project officer for evaluations on the effectiveness of survey methods, instrument and material, including evaluating interviewer/interpreter effects on survey response and quality, conducting cost-benefit analyses of outreach materials and media campaigns, and assessing the effects of Asian oversample on survey responses and quality.
- Initiated, designed, and implemented evaluation studies on health policies and practices related to women's health, prescription drug use and physical exercises, and provided public health recommendations based on scientific evidence.

- Led the evaluation and assessment of data analytic tools and platforms, and produced highly visible NCHS Data Visualization Gallery, pioneered new data dissemination platform with open access and automated template design, published over a dozen visual analytics (the opioid overdose dashboard was featured as headline story on New York Times).
- Founding member of CDC Scientific Advisory Work Group on data science and data visualization and served in its first executive steering committee.
- Author or co-author of dozens of scientific reports and journal articles

Public health analyst

June 1996 – July 1996

Arizona State Department of Health, Phoenix, Arizona

- Data management, quality assurance, and data analyses for HIV/AIDS surveillance system in the state of Arizona Department of Health and Human Services

Reporter

July 1988 – August 1990

Xinhua News Agency, Beijing China

- Reported Chinese news and stories for overseas English readers – two times winner of the “Best story of the Year” at the national news agency.

Publications and Awards

Award highlights:

- CDC “Excellence in Innovation Award”, 2018
- CDC “Merit Award in Drug Overdose Rapid Data Reporting”, 2018
- CDC “Outstanding Performance Award”, 2006-2018
- CDC “On the Spot Award for Extraordinary and timely evaluation of scientific proposals”, 2014
- CDC “Outreach and communication performance award for Asian oversample task team”, 2010
- CDC “Innovation of the year for delivering cutting-edge e-learning courses”, 2009 • CDC “Director’s Award for developing innovative online learning platform”, 2007

Xiaozhe (Katherine) Miao – Billing Specialist

Career Summary

An experienced billing specialist working on more than 18 projects with a solid understanding of relevant rules and regulations, managing and recording all company’s invoices, working closely with more than 40 vendors and consultants, identifying inconsistency and inaccuracies with critical thinking skills, and managing status of accounts with a detail-oriented mind.

Education, Training, and Certifications

- University of Michigan, Master of Accounting, Ann Arbor Michigan, 2017-2018
- Rochester Institute of Technology, Bachelor of Science, Accounting, Rochester, New York, 2013-2015

Work Experience

Billing Specialist

July 2018 – Present

DSFederal, Inc, Rockville MD

Project: Finance department

- Bill and submit monthly invoices for more than 18 projects worth more than \$571K within the allowable time frame, manage the status of accounts and balances, identify inconsistencies, ensure all clients remain informed on their outstanding debts and deadlines, and follow up on Accounts Receivable reports regarding billing activities with clear and reliable data
- Administer and maintain all accounting records to assist with full cycle Accounts Payable processing, examine and audit invoices for accuracy and quality, analyze spending patterns, and interface with more than 40 vendors and consultants and 10 project managers to address and resolve inquiries of invoices and status from clients in a timely manner
- Process payroll for more than 155 employees semi-monthly, ensuring correct and reliable time sheet records to each project, prepare and communicate analytical results of direct and indirect labor costs to project managers for project profitability analysis and future budget projection
- Manage and process reimbursement reports from consultants and employees, ensuring accuracy, reasonableness, and compliance with laws, rules, and regulations

Audit Intern

June – August 2017

DA HUA CPAs, Beijing, China

- Analyzed financial statements of Zhongnan Diamond CO., Ltd, performed field audit in one week, detecting understated sales expense and overstated employee benefits
- Conducted substantiate tests by examining bank statements, sales tax invoices, and company's book of \$46M accounts receivables, \$36M cash and cash equivalents
- Collected 71 external confirmation letters, compiled differences in detail, compiled and organized audit work papers, and ensured 100% accuracy of sales and expense related accounts, completing project in one week ahead of schedule

Publications and Awards

- Honored as a member of Beta Gamma Sigma, an international business honor society, as a top 10% of undergraduate student that has successfully defended dissertation at an AACSB accredited business school worldwide
- Awarded Saunders College of Business Scholarship of \$4000 in 2016

Alexandra Zuber – Subject Matter Expert

Career Summary

An expert in public health with extensive international experience.

Education, Training, and Certifications

- Doctor of Public Health University of North Carolina- Chapel Hill, 2018
- Master of Public Policy: Health Policy and Management Harvard University, 2005
- B.A. Summa cum laude, International Relations (Major); Spanish- Portuguese (Major); Economics (Minor) University of Minnesota, 2001

Work Experience

Ata Health Strategies LLC Oct, 2016-Present

- Establish and lead a consulting practice to assist public and private sector clients in the strategic design, implementation, and evaluation of public health programs, with a focus on upstream factors including social determinants of health among health systems and payers.

Centers for Disease Control and Prevention, May 2006- Aug 2016
Division of Global HIV/AIDS and TB

Team Lead 2012- 2016

Health Systems Strengthening (HSS) and Human Resources for Health (HRH)

- Founded and led a new 10 person team responsible for strengthening health system capacity for delivery of national HIV programs, under the \$72 billion President's Emergency Plan for AIDS Relief (PEPFAR)
- Personally negotiated with other federal agencies to secure \$25 million in new funding
- Designed and executed new international programs and research, including establishing the first Project ECHO in Africa, creating a 21-country nursing learning collaborative, and establishing national HRIS in over 7 countries resulting in improved education, policy, regulation, training, and management of health workers
- Served as CDC's lead HRH expert in PEPFAR, leading federal committees to develop policy (e.g. PEPFAR HRH Strategy) and tools (e.g. PEPFAR Sustainability Index) to govern health systems investment in 80 countries, advancing collaborations with global stakeholders, and presenting at international conferences and events
- Provided strategy advising to CDC's National Public Health Institutes and FETP programs, and for CDC field offices in multiple countries, resulting in expanded funding and improved accountability
- Significant Contribution Award (nominee), for strategic formulation of health workforce policy and programs, CDC DGHT, 2016, and Excellence in Collaboration Award, for exceptional project teamwork, CDC DGHT, 2016

Senior Advisor, Health Systems and Human Resources for Health Team	2009- 2012
<ul style="list-style-type: none"> • Led an interagency federal working group to design and execute the strategy to achieve the Congressional mandate to produce 140,000 new health workers in over 30 countries, • Developed white papers, issues briefs, reports, and scientific products disseminated globally for thought leadership • Provided strategy advising to CDC programs in Africa, the Caribbean, and Asia for health systems development resulting in increased funding and expanded programming 	
Public Health Analyst Office of the Director	2006- 2009
<ul style="list-style-type: none"> • Coordinated the CDC working group on maternal and newborn health (MNCH) integration, resulting in a CDC Center award, a competitive funding award, and the first CDC-USAID global guidance on MNCH activities • Tracked legislation, responded to Congressional inquiries, managed GAO audits, and wrote policy briefs • Presidential Management Fellow, U.S. Office of Personnel Management, 2006-2008 	
<i>Special Assignments:</i>	
Senior advisor public-private partnership development U.S. Department of State, Global Health Initiative Office	Nov 2011- Jun 2012

Christine Lunda – Subject Matter Expert

Career Summary

Ms. Lunda has held leadership positions in public health AIDS service organizations for over 15 years and has shown excellent management and leadership skills, overseeing multimillion-dollar budgets, thousands of clients, and numerous staff.

Education, Training, and Certifications

- Licensed Master of Social Worker (LMWS), 2003
- Licensed Clinical Social Work (LCSW) candidate, 2019

- Center for Disease Control (CDC) Institute for HIV Prevention Leadership, Leadership and Achievement Certificate, 2006
- Center for Disease Control (CDC) and Prevention Certified Trainer/Coach, 2007
- University of South Carolina, Master of Science, Public Health, Columbia South Carolina, 2000
- University of South Carolina, Master of Arts, Social Work, Columbia South Carolina, 2000
- Warren Wilson College, Bachelor of Arts, Social Work, Asheville North Carolina, 1997

Work Experience

Regional Director, Ryan White & Special Programs May 2018 – Present
 Eau Claire Cooperative Health Center, Columbia South Carolina

- Responsible for oversight and management of Ryan White and Prevention Programs funding including assisting in the competitive grant application process and continuation proposals, completing needs assessments, progress reports as required, work plans, and budgets.
- Collaboration with sub-recipients monitoring and administrative work overseeing Ryan White involving collaborative work with Sub-recipients. Provides direction and leadership for Clinical Quality Management Programs.
- Leads efforts in development, implementation Quality Management Systems (QMS) to maintain best practices with a focus on clinical quality improvement.
- Chair of the HIVQUAL South Carolina Regional Group over a period of years
- Leads an immediate staff of over 16 employees and provides direct oversight of our Part C and Part D program

Regional Director of Grants Management, Quality Improvement and Training January 2015 – May 2018
 HopeHealth, Inc.

- Developed, guided, provided expertise and oversight in the establishment, implementation, and evaluation of Quality Improvement activities regionally for Ryan White, Prevention, and Specialty Service sites.
- Monitored data management, Quality Management Plans, and adherence to In+Care Campaign guidelines, CDC guidelines, and HRSA guidelines.
- Established training curriculums and protocols as it related to site /program needs.
- State and regional trainer (one of five) for HIV/HCV testing and group level interventions at the request of SC DHEC's STD/HIV Division; trained more than 450 individuals in the state.
- Chair of the HIVQUAL Ryan White Part C Grantee Meeting in collaboration with the South Carolina Primary Care Association and National Quality Center
- Conference presenter: National Ryan White Conference, Washington, DC and at HIV/STD and Viral Hepatitis Conference, Columbia SC.
- HIV Planning Council member since 2006, served as chair on Prevention Committee for 5 different terms.

Project Director: Substance Abuse Mental Health and Services Administration (SAMHSA) Targeted Capacity Expansion (TCE) Project September 2014 – October 2017

- Provided direction for the TCE project over 3-year grant cycle overseeing budget of 1.5 million; project that expanded substance abuse treatment and HIV services for at-risk and underserved populations.
- Increased awareness of HIV/HCV and related risk factors among minority women and other residents in the community; Program staff served 5,433 clients for substance use disorders in Year 2 and Year 3.

- Increased number of minority women and other residents in the community who received HIV and HCV testing and who know their HIV/HCV status; Program staff tested 2,649 individuals for HCV in the target area. Increased number of minority women and other residents who had testing positive are linked to services and engaged in care.
- Developed a community partner organization collaboration network for HIV/HCV care with 40 providers.

Director of Program Services

October 2005 – January 2015

HopeHealth, Inc.

- Responsible for direct supervision of 25 staff serving over 1000 patients.
- Provided oversight / supervision for HRSA and SC DHEC grants for Ryan White Parts B and C HIV programs: implementation, monitoring, quality management, evaluation grant writing and reporting.
- Responsible for monitoring and managing a 3-million-dollar budget for more than 10 years.
- Served as a grants management key liaison responding to federal and state project officers for numerous grants.
- State and regional trainer for SC DHEC since 2007. Supervised a staff of 15 staff in the Infectious Disease department.

Prevention Services Coordinator

August 2004 – July 2005

HopeHealth, Inc.

- Lead Principal Investigator on a 6-year CDC funded project; implementation, monitoring and supervision.
- Responsible for direct supervision for staff of 10; submission of reports for program and conduct direct services to clients in a clinical setting as well as in the community.
- Oversight and implementation of all prevention programs providing ongoing monitoring of prevention deliverables and program requirements.
- Developed and maintain Prevention Program Policies and Procedures Manual.

Gebeyehu Teferi – Subject Matter Expert

Career Summary

Dr. Teferi is an experienced infectious disease specialist who has been practicing for over 32 years. He has specialized in HIV/AIDS care and treatment for over 28 years.

Education, Training, and Certifications

- Washington Hospital Center, Georgetown University Hospital, Fellow in Infectious Diseases, Washington DC, 2003 – 2005
- Prince George's Hospital Center, Internal Medicine Residency Program, Resident and Chief Resident, Cheverly Maryland, 2000-2003
- Addis Ababa University, Gondar College of Medical Sciences, Doctor of Medicine, Gondar Ethiopia, 1987
- Board Certification: American Board of Internal Medicine, Infectious Diseases

Work Experience

Medical Director for HIV Services/Chief of Infectious Disease August 2005 – Present
Unity Health Care, Inc., Washington DC

- Developed a HIV Care management algorithm. Algorithm is shared to multiple outside Health Care programs by request.
- Developed a Hepatitis C management algorithm.
- Built HIV care template in the EMR.
- Wrote Unity Healthcare provider manual for HIV care, including patient manual.
- Built a database for an infectious control program.

Physician 2007 – 2015

Department of Corrections, Baltimore Maryland

- Worked on the weekend and evening hours in patient service and outpatient service

Fellow in Infectious Diseases July 2003 – June 2005

Washington Hospital Center, Washington DC

- Built a database for consultation records for the Infectious Diseases Division.

Resident, Chief Resident in Internal Medicine Residency Program July 2000 – June 2003 Prince George's Hospital Center, Cheverly Maryland

Staff Physician, Department of Internal Medicine 1991 – 1995

St. Paulos Hospital, Addis Ababa Ethiopia •

Worked in the HIV Care Clinic.

- Worked in the Chest Clinic for tuberculosis and asthma.

Division Head of Programs of Immunization, Maternal and Child Health Care and

Environmental Health 1990 - 1991
Gambella Regional Health Department, Gambella Ethiopia

- Head of a project on education on HIV & AIDS.

Medical Director 1989 – 1990
Itang Health Center, Gambella Ethiopia

- Served as Medical Director for a United Nation and Red Cross sponsored Refugee Camp, population of 200,000.

Medical Director and Staff Physician 1987 – 1989
Gambella Hospital, Gambella Ethiopia

Publications and Awards

Juanita Farrow

Captain Thurma Goldman – Subject Matter Expert

Career Summary

Captain Thurma Goldman has critical and founding experience in PEPFAR, being involved in the collaboration and formulation of the initiative at its very start in 2002. She served on multiple country teams to help introduce the PEPFAR concept and adoption and the idea of interagency cooperation to many countries. Dr. Goldman has since led PEPFAR and antiretroviral treatment (ART) efforts, noticeably leading South Africa in becoming the most complex of PEPFAR programs and the largest provider of ART in the world, while being financially responsible for a budget of hundreds of millions of dollars.

Education, Training, and Certifications

- University of California at Los Angeles, Masters in Public Health, Los Angeles California, 1981
- Howard University College of Medicine, Doctor of Medicine, Washington DC, 1975 • Howard University, Bachelor of Science, Biology, Washington DC, 1972

Work Experience

Consultant/Proprietor January 2015 – Present
Health and Community Services, Consulting, LLC

- Provided guidance and technical assistance through comprehensive site visits. Completed over 35 site visits reviewing Clinical aspects of Ryan White HIV/AIDS Programs (RWHAP) including Part C and D.

Physician July 1989 – July 2015
Clinical Practice in General Pediatrics and Adolescent Medicine

Senior Advisor/Administrator May 2012 – June 2014
Center for Global Health, CDC, Washington DC

- Provided guidance and technical assistance on Pediatric and Adolescent services to be conducted under PEPFAR in collaboration with country programs.
- Participated on working groups with headquarters, field, multilateral and global partners that produce guidance and policy to host country governments.
- Jointly developed the first adolescent-specific technical considerations for the field and country governments on development of services for adolescents living with HIV.
- Reviewed Pediatric and PMTCT progress reports with each PEPFAR country that fell short of meeting PEPFAR targets.
- Reviewed annual Country Operational Plans for selected countries.

Country Director South Africa May 2009 – May 2012
Division of Global HIV/AIDS Programs, Center for Global Health, Centers for Disease Control and Prevention (CDC), Pretoria South Africa

- Supervision and management staff of professional and paraprofessionals in public health-included human resources, fiscal oversight, clinical policy and regulations. Ensured quality management of clinical services in the areas of HIV prevention and treatment.
- Financial responsibility for budget of \$225M for both cooperative agreements and contracts that provide public health solutions to HIV/AIDS and TB.
- Contributed to the goals of PEPFAR which resulted in SA becoming the most complex of programs and the largest provider of ART in the world. Setting policy for ART treatment and HIV prevention services in urban and rural settings utilizing multiple federal cooperative agreements and complex contracts.

Chief, Care and Treatment Branch

April 2006 – May 2009

Division of Global AIDS Programs, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC), Pretoria South Africa

- Authority for management of 5 professional staff and 21 Federally funded cooperative agreements ranging from \$1-15M, all relating to provision of care and treatment services for HIV/AIDS and TB. This included policy development and implementation of key activities for HIV counseling and testing and Prevention of Mother to Child Transmission and Pediatric ART.
- Setting strategic direction in this program area within the confines of the PEPFAR. This required interagency collaboration and communication with government, stakeholders and partners.
- Provided technical assistance to government on provision of quality services, monitoring and evaluation, and development/implementation of policy supported by evidenced-based research and evaluation.

Director, Global Programs for HIV/AIDS

October 2002 – April 2006

HIV/AIDS Bureau, Health Resources and Services Administration (HRSA), Rockville Maryland

- Provided oversight for HIV/AIDS Bureau's technical assistance for HIV/AIDS in global communities utilizing best practice from primary care settings in the US.
- Managed cooperative agreements, contracts and individual professional agreements totaling over \$4 million per year to provide technical assistance to host country ministries of health.
- Served as HRSA point of contact and subject matter expert on global HIV/AIDS for the Agency, Bureau, DHHS and sister agencies, Department of State, among stakeholders who were multi-national organizations and the private sector.
- Established the first international AIDS education and training center based on the US model that reached out to countries providing technical assistance and support to countries that were preparing to train clinicians on provision quality HIV/AIDS services.
- Collaborated on the formulation of PEPFAR and especially on the Track 1 ART program (designed as the initial fast-tracked grantees to roll out ART in the initial 10 countries).

- Eagle Award- 2017 awarded by the US Embassy for significant and outstanding technical leadership, teamwork and coordination of USAID/Tanzania Site Improvement Monitoring System

Martine Etienne-Mesubi – Consultant

Career Summary

Technical expert with 15 years of experience working with USAID, CDC, and private/public partnerships across sub-Saharan Africa and the Caribbean. Experience in managing and coordinating field teams, mentoring in care delivery models from primary to tertiary levels with significant emphasis on cross cutting technical areas such as HIV/AIDS, TB, Malaria.

Developed strong working relationships with ministries of health in several sub-Saharan and Caribbean countries including Uganda, Tanzania, Ethiopia and Haiti on program design, implementation, evaluation and development of collaborative learning agendas. Trilingual in English, French and Haitian Creole.

Education, Training, and Certifications

Doctor of Public Health (DrPH) - Public Health Program, Honors in Epidemiology, *Morgan State University, Baltimore, Maryland*, May 2004

Master of Public Health (MPH) - Public Health Program, May 2002 Honors in Epidemiology, *Morgan State University, Baltimore, Maryland*

Thesis: Selected Factors Contributing to HIV Therapy Failure Among African

Bachelor of Arts Degree in Psychology August 1998 – June 1999

State University of New York, Stony Brook, New York

Work Experience

Director, Health Programs & Research June 2005 – March 2014

University of Maryland, Institute of Human Virology Baltimore, MD

Project: PEPFAR, AIDRelief

- Led the clinical and community education components of a \$335 million PEPFAR-funded consortium focused on cross cutting health care including HIV treatment, prevention, TB, malaria and nutrition. Conducted facility assessments, developed monitoring and evaluation plan of HIV care and treatment global programs in ten countries across sub-Saharan Africa and the Caribbean. Developed strategies to target most vulnerable populations in rural and difficult to reach areas.
- Established innovative performance improvement strategies such as the use of continuous quality improvement and test of change initiatives. Provided management and treatment trainings for patients to become community treatment supporters, which reduced the shortage of rural health workers by 25%.
- Supported integrated service delivery systems in very resource poor areas by training healthcare workers from all departments (tuberculosis, pediatrics, laboratory technicians, etc.) in HIV care and treatment. Improved treatment efficiencies and reduced costs by 25% allowing the program to reach 30% additional beneficiaries.

Program Director, HIV/AIDS Care & Treatment May 2004 – June 2005

University of Maryland, Institute of Human Virology Baltimore, MD

Project: PEPFAR, AIDRelief

- Developed engagement strategies with non-traditional community networks across sub-Saharan Africa and the Caribbean on assessments, maintenance of information flow, providing technical resources on clinical and social issues in order to support access to continuous HIV provision of care, treatment and prevention.
- Developed curricula focused on cross-cutting areas related to HIV/AIDS counseling, testing, treatment and prevention with a focus on rural communities and vulnerable populations that was used to target and train community members/patients living with or affected by HIV/AIDS.
- Worked with diverse communities to inform the implementation of HIV treatment programs servicing adolescents, pregnant mothers, and other vulnerable populations resulting in improved access to care.

Everlyne Nyagaya – Consultant

Career Summary

Versed in Information Technology, Business Analysis, Technical Implementation, Program Monitoring and Evaluation, Program implementation, National and International Collaborative and Strategic Engagements, Quality Metrics, Health Information Systems, Public Health Informatics, Basic Program Evaluation, and Operations Research. Technical expertise in HIV/AIDS and PEPFAR with country experience in Kenya, Uganda, Tanzania and Nigeria.

Education, Training, and Certifications

- Emory University, Master of Public Health, Atlanta, Georgia, 2017

Work Experience

ORISE Fellow
CDC, Atlanta, GA

October 2018 – Present

- Providing technical support in monitoring, controlling, and prevention of about 120 diseases under the division of Health Informatics and Surveillance.
- Developed Lyme and Tick-borne Rickettsia Diseases, HIA, MDRO reporting pages using message-mapping guides on NBS an integrated information system that helps local, state, and territorial public health departments manage reportable disease data and send notifiable disease data to CDC.

- Served as a project manager and business analyst in the implementation of a cloud based health information system (DHIS2) for international HIV programs in Kenya, Uganda, Tanzania, and Nigeria.
- Served as Project manager in implementation of Quality assessment mobile application on Mongo Db. (NoSQL database) with Biomedical Research Unit in Peru.
- Provided technical support for the integration and use of Health Information System for effective monitoring and evaluation of HIV care and treatment programs.
- Served as primary advisor and Military HIV Research Program lead with in-country M&E leads in the area of Health Management Information Systems (HMIS) supporting routine and non-routine reporting.
- Determined training needs for program staff; reviewed/approved training curriculum for local partners in overall Health Management Information Systems; ensured scientific validity and efficiency as well as the integration of national guidelines and Global Health Program priorities into data collection/reporting tools and standard operating procedures.
- Served as Data systems representative at the Office of the U.S. Global AIDS coordinator and Health Diplomacy interagency space.
- Served as the Principle investigator for the management and integrity of the design, conduct, and reporting of the Basic Program Evaluation Protocols in Kenya, Uganda, and Tanzania, Nigeria and managing, monitoring and ensuring the integrity of any collaborative relationships.

Senior Technical Advisor, M&E

July 2015 – August 2016

U.S. Military HIV Research Program (MHRP), HJF, Bethesda, MD

- Managed the process of President's Emergency Plan for AIDS Relief (PEPFAR) specific data collection and reporting to include quarterly, Semi Annual Progress Report (S/APR) by engaging in data analysis and review to ensure accurate data submission to both internally and to Office of the Global AIDS coordinator.
- Directly and functionally supervised M&E Associates and the Quality Metrics Advisor, ensuring that all their responsibilities and tasks were fulfilled as required.
- Served as the global Health Programs contact for internal and external queries related to GHP data.

Quality Metrics Advisor, M&E

September 2014 – July 2015

U.S. Military HIV Research Program (MHRP), HJF, Bethesda, MD

- Served as the primary point of contact for MHRP's participation in the design, dissemination and implementation of Office of the Global Aids Coordinator's (OGAC) Site Improvement through Monitoring System (SIMS) process and tool.
- Offered technical support to Vietnam, Papua New Guinea Republic, Kenya, Malawi and Democratic Republic of Congo within the quality improvement framework.

Research and Publications

- Marseille, E., Kahn, J. G., Beatty, S., and Perchal, P. 2011. Assessing the costs of multiple program approaches and service delivery modes for adult male circumcision in Nyanza Province, Kenya. (Research Assistant)

- Oversaw data collection process from sites, ensuring timely and effective implementation and monitoring of respective tools, and ensuring proper reporting to the in-country USG team, OGAC, and DoD headquarters.
- Designed data capture system for Site Improvement through monitoring system using survey software called survey gizmo.
